REQUIRED FLOODPLAIN DETERMINATION AND PERMITTING INFORMATION

On Wednesday, **November 20, 2013**, new flood maps for Leon County, Texas became effective. Because Leon County participates in the National Flood Insurance Program, **all new construction, manufactured home placement and substantial improvements including but not limited to water supply systems and sanitary sewage systems require a floodplain determination/development permit.** The landowner should contact the 911 Addressing/Emergency Management office or their local city office to receive information on floodplain determination/permitting procedures, and to obtain an application. This is intended to inform the landowner of their responsibilities.

The proposed development/construction may not begin until after written authorization has been issued from the county or city office.
